FRAMEWORK & AUTHORITY - Branch Post Office Inspection Questionnaire

The Branch Post Office Inspection Questionnaire is issued by the Inspection Division, Department of Posts (Directorate), under File No. 16-03/2019-Inspn. The following are the key orders governing this questionnaire:

Letter/File No.	Date	Subject/Purpose
Letter No. 16-02/2017-Inspn.	24.09.2020	Original BO Inspection Questionnaire (superseded)
Letter No. 16-03/2019-Inspn.	09.08.2019	Revised BO Inspection Questionnaire (current base document – 20 pages, Sections A to K)
Letter No. 16-02/2017-Inspn.	24.09.2020	Supplementary Questionnaire & Modifications in BO Questionnaire (relating to Financial Services)
Letter No. 16-03/2019-Inspn.	15.04.2021	Revision of Q. No. 36 (passbook collection frequency changed from 1/month to 1/2 months)
Letter No. 16-03/2019-Inspn.	07.02.2022	Further revision of Q. No. 36 (added Note 2 regarding repeated passbook verification)

 Note

The BO Inspection Questionnaire has been revised multiple times. For exam purposes, always remember the latest consolidated position (as of February 2022). The key revision point tested in exams is Q.No. 36 regarding passbook verification frequency.

SECTION A: ADMINISTRATION

1. General Information about the Branch Post Office

The inspecting officer must first record the following basic details about the BO being inspected:

Sl. No.	Information Required
1	Name of the Branch Post Office (BO)
2	Name of the Account Office (AO)
3	Name of the Head Office
4	Facility ID of the BO
5	Profit/Cost Centre ID of the BO
6	Date of Opening of the BO
7	Date of last inspection/visit by Divisional Head
8	Date of Last Inspection
9	Last inspected by
11	Dates of subsequent visits by Sub Divisional Head
12	Dates of subsequent visits by Mail Overseer

Application Check: For Sl. No. 4 & 5 above, use T. code ZFID in SAP. Input the office type as “BO” and receiver PINCODE, then click Execute. This will display the Facility ID and Profit/Cost Centre of the BO.

2. Technical Information about the BO

The following operational parameters must be verified:

Parameter	Sub-items	Inspection Points / Remarks
Working Hours	Receipt of Mail, Delivery of Mail, LB Clearance, Despatch of Mail	Check whether BO is functioning as per norms of minimum 4 hours and maximum 5 hours. Suggest modifications if needed.
Authorized Balances	Minimum Cash, Maximum Cash, Minimum Stamp Balance, Maximum Stamp Balance	Check whether balances are adequate for BO and IPPB transactions. Application: Generate DTR in SAP for the BO and check authorized balance.
Location of BO	–	Check if BO is in standard accommodation per Directorate Letter No. 17-31/2016-GDS (PL) dt. 28.09.2018. Examine feasibility of locating BO in Panchayat building if in rented/BPM premises. Check cleanliness.
Villages Served	–	Check list of villages/hamlets served. Verify updated info on households, extent of coverage.
Panchayat HQ	–	Indicate the Panchayat HQ village. Note if BO needs to shift to Panchayat HQ.
Mail Arrangement	–	Examine mode of mail conveyance and suggest improvements.
FG Bonds/Security Deposit	NSC/Bank Guarantee	Check currency of FG bonds/security deposit of all GDS (DG Letter No. 6-18/2010-PE-II dt. 07.05.2010). Carry list of renewed bonds as on 1st Nov.

3. Establishment of the BO

Record the establishment details of the BO in the following format:

Sl.	Name	Desig.	Emp. ID	TRCA	DOB	Dt. of Appt.	Remarks

The list of incumbents can be obtained from the Divisional Office by the IP/ASP/Inspecting Authority before initiating the inspection.

Q.4. Substitutes Mapping: Check whether substitutes for the BO have been mapped and whether the Mail Overseer has also been mapped as one of the substitutes. If not, take steps to enrol Mail Overseers as substitutes. **Application:** Check MDM Portal.

Q.5. Leave & Salary: Check whether GDS are applying for leave through the application and whether they can generate salary slips. **Application:** Check MSS.

Q.6. Establishment Review: When was the last establishment review? Assess prima-facie workload of posts borne. Examine feasibility of combining duties of GDS for economy without impairing efficiency. If workload is heavy, examine upgradation. If workload assessment appears not as per posts borne, recommend review to Divisional Head.

Q.7. Mail Overseer Visits: Check effectiveness of MO visits (once per quarter as prescribed). Has the MO checked/verified accounts/other transactions and noted results in the order book? Ensure MOs are verifying transactions with customers independently, without assistance from BO staff. Are MOs familiar with DARPAN applications and able to carry out checks in the digital environment?

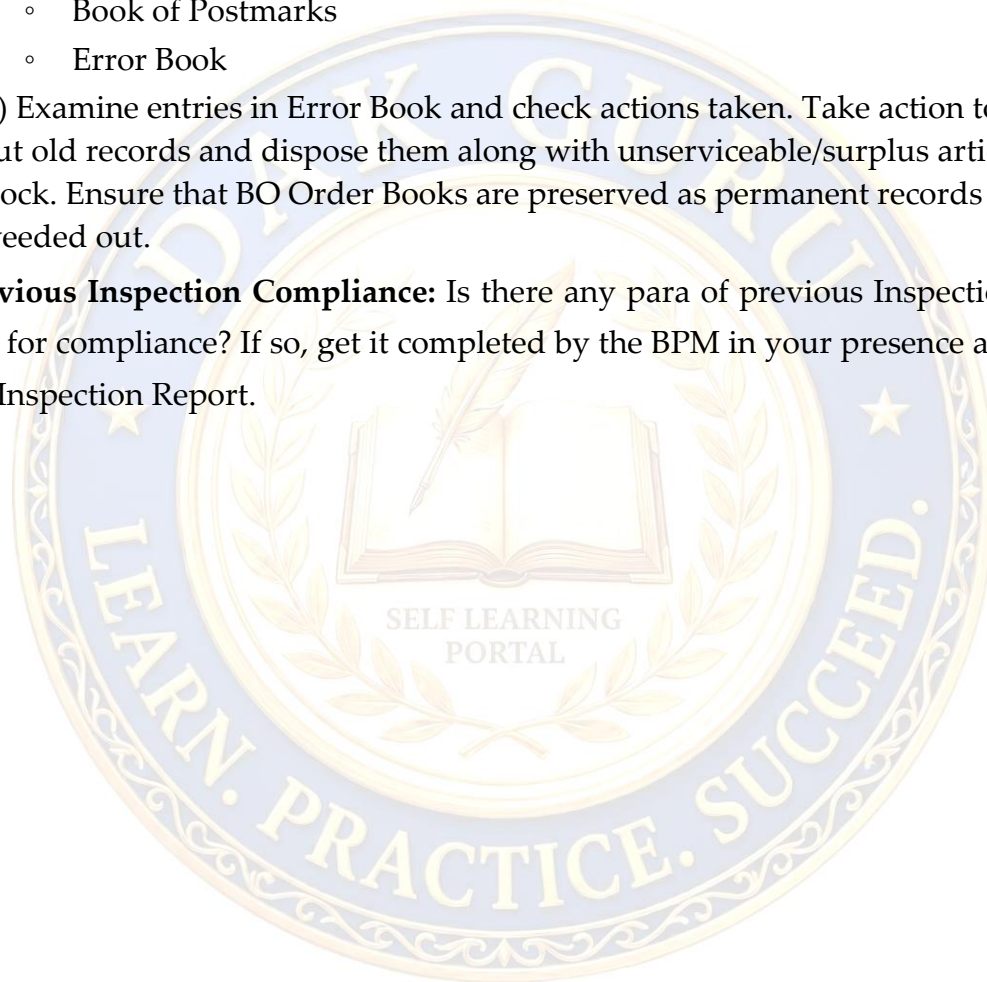

8. Stock Verification

The following stock verification checks must be carried out:

- (a) Carry out physical verification of items of stock with reference to the Stock Register.
- (b) Ensure entry of items mentioned in the Rollout Acceptance Note regarding DARPAN device and peripherals received under IPPB. Note the 'Go live' dates of DARPAN and IPPB access point.

- (c) Check whether BO infrastructure (table, chair, almirah, safe, electronic weighing scale etc.) has been supplied. Identify items for future supply.
- (d) Assess requirement of stationary and forms. Check whether sufficient paper rolls for printing and BO bag barcode labels are available.
- (e) Check whether the following registers/books/records are maintained correctly:
 - Village Sorting List
 - Route List and Beat Map
 - Book of Postmarks
 - Error Book
- (f) Examine entries in Error Book and check actions taken. Take action to weed out old records and dispose them along with unserviceable/surplus articles of stock. Ensure that BO Order Books are preserved as permanent records and not weeded out.

Q.9. Previous Inspection Compliance: Is there any para of previous Inspection Report pending for compliance? If so, get it completed by the BPM in your presence and record it in the Inspection Report.

SECTION B: TECHNOLOGY AND DARPAN

10. Hardware & Software Checks

Q.10(a) Device Information: Record the hardware and client applications used in the DARPAN device and IPPB smart phones at the BO. This includes serial numbers of devices and peripherals:

Sl.	Devices & Peripherals	Serial Number
(i)	Main Computing Device (MCD)	
(ii)	IMEI Number of MCD	
(iii)	Kaifya/Sunyard Pin Pad (P-90)	
(iv)	Barcode Scanner	
(v)	IPPB Smart Phone supplied to BPM/ABPM	
(vi)	Solar UPS	
(vii)	Type of NSP SIM (Airtel/BSNL/Vodafone/Idea) supplied & activated	

Q.10(b) Application Versions: Check whether updated versions of System & Business Client Applications are installed:

Sl.	System / Business Client Application	Version
(i)	DARPAN SDP	
(ii)	Device Management Client	
(iii)	Firmware	

(iv)	M-Connect	
(v)	DARPAN CSI – Common Application	
(vi)	DARPAN CSI – Delivery Application	
(vii)	DARPAN CSI – Demo Booking Application	
(viii)	DARPAN CBS Client Application	
(ix)	DARPAN PLI Client Application	
(x)	RSI eMO Client Application (Non CBS & Non CSI locations)	
(xi)	IPPB (Micro-ATM) Application	

Application to be checked: Login to MDM Portal. The IA may note details from the IR and check Stock Book at the Divisional Office.

11-16: Device Operations & Network Checks

Q.11. Signal Strength: Ask the BPM to login and check signal strength. Is it sufficient? If not, explore alternate locations, external antenna (Magnetic/Yagi), escalate to service provider, or raise trouble ticket.

Q.12. Connectivity Issues: Check for instances where transactions could not be performed due to connectivity/power/device issues. Check if BPM has recorded such instances in the Error Book.

Q.13. Helpdesk Ticket Awareness: Whether BPM is aware of the procedure of raising ticket for issues (as in para 12 above). If not, guide accordingly.

Q.14. Solar Panel/UPS: If BO has solar panel, check functioning. If Solar UPS is not getting charged, what is the alternative power? Ensure adequate source of power for operations.

Q.15. Battery Cradle Usage: Check whether BPM is using both battery cradles alternately (one connected to device, other charging). Ensure DARPAN MCD is always powered from batteries, NOT directly connected to Solar UPS or Electricity Supply.

Q.16.1. User Information: Verify User info: BO Name, BO CSI Facility ID, User Name, User ID (BPM or substitute with Aadhaar ID), BO Name and User Role in Menu bar.

Q.16.2. Device Information: Check Device ID, DM Client Version and Environment details in Menu bar against Division records.

Q.16.3. Network & Data Connectivity: Check by pressing “C” button on top right corner post login. Note: IPs have ‘Read-only’ login. Access for inspection via “Edit RICT Admin details” in RICT Admin Management Menu.

Q.16.4. CSQ Value: Check Network Connectivity availability inside BO for each Business Client Application and note down CSQ (Check Signal Strength Quality) value.

Q.16.5. Solar Solution Report: Examine office copy of Solar Solution Installation Report. Check BPM has signed and impressed Office Seal/Date stamp.

Q.16.6. Incident Ticket Process: Check whether BPM is aware of raising incident tickets via CSI Level 1 Help desk for DARPAN Devices [MCD & Peripherals] and Solar Solution. Explain Incident Management process.

Q.16.7. Service Desk Tickets: Check whether Division has raised Service Desk tickets on CSI helpdesk for Hardware (MCD & Solar)/Network Connectivity issues. Check resolution timelines at RH Level 2 Help Desk or Service Centre.

Q.16.8. Hardware Issues Review: Review hardware issues found at BO and feedback on functioning (time taken & quality of hardware issue resolution) of DARPAN Device by the Service Centre.

Q.16.9. Solar Panel & UPS Condition: Check if Solar Panel and UPS (if available in BO) are in working condition.

Q.16.10. RICT Device Storage: See whether RICT device is kept properly in the Carry case after working hours.

Q.16.11. BPM Device Skills: Comment on the knowledge and skill of the BPM in operating the device and handling peripherals.

Q.16.12. Technology Feedback: Take feedback from BPM on technology implementation. Record issues faced and report to RB Section of Postal Directorate through Divisional/Circle Head if critical.

SECTION C: MAILS

Q.17. BO Bag Process: Check whether prescribed process is followed at the time of opening of BO Bag in DARPAN CSI environment. Also see whether bag details are available electronically. Comment on methods adopted by BPM when bags are received physically at BO but data is not received. Identify the number of such occasions and take measures for standardized operations. **Application: Using Delivery App.**

Q.18. Accountable Articles: Check whether BPM is issuing accountable articles using DARPAN CSI app. Otherwise, guide the BPM about the correct process. **Application: Using the Delivery App.**

19. Articles in Deposit

Check the articles in deposit to see:

- (a) Whether articles are detained beyond the prescribed period.
- (b) Compare the number of articles in deposit as per DARPAN CSI app and the physical number of articles available at the BO. If not matching, examine cause and guide BPM.
- (c) Check randomly a few articles delivered at the BO using Postinfo mobile app or through the device backup to confirm delivery status has been updated.
- (d) Whether GDSBPM is properly examining the remarks passed by ABPM and whether standard remarks are recorded on articles. System of using standard remarks by providing a rubber stamp and asking BPM/ABPM to tick the correct remark may be adopted.
- (e) Whether articles have been received missent at BOs? If yes, what is the manner of disposal? Whether necessary Error Entries are available. This check is to be carried out for physical articles as well as eMOs.
- (f) Whether process of redirection of articles is properly done through the device. In case of parcels, whether remarks as to the collection of redirection fee is recorded on the article.
- (g) Whether articles in deposit are in good condition.

Q.20. VP/COD Articles: Check whether VPMOs have been booked against the VP articles delivered since DLI. **Application: FAGLL03 – GL Head 4200030002.**

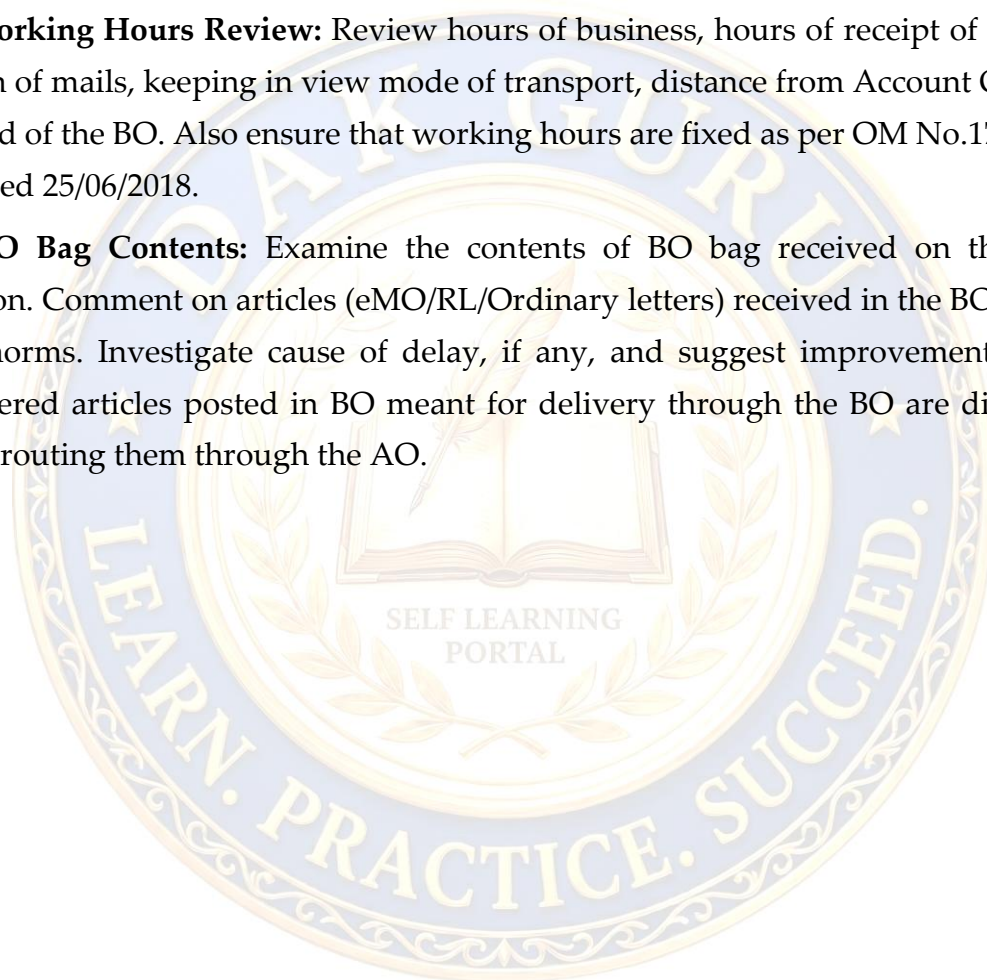

Note: The Inspecting Authority can get all details in CSI System before visiting the BO. During inspection they can cross-check with BO records.

21. Letter Boxes

- (i) How many letter boxes are attached to the BO (apart from office LB)? Are LBs painted and in good condition? Are outside LBs provided with moveable hour plates?
- (ii) Are LBs cleared punctually and are the timings of clearance suitable?
- (iii) See whether mails cleared from LBs and those received missent are included in the despatch of the day. If not so, revise the duties of BPM/ABPM to ensure same-day despatch.

Q.22. Working Hours Review: Review hours of business, hours of receipt of mails and despatch of mails, keeping in view mode of transport, distance from Account Office and workload of the BO. Also ensure that working hours are fixed as per OM No.17-31/2016-GDS dated 25/06/2018.

Q.23. BO Bag Contents: Examine the contents of BO bag received on the day of inspection. Comment on articles (eMO/RL/Ordinary letters) received in the BO bag with transit norms. Investigate cause of delay, if any, and suggest improvements. Ensure unregistered articles posted in BO meant for delivery through the BO are disposed of without routing them through the AO.

SECTION D: FINANCE AND ACCOUNTING

Q.24. Cash Balance Verification: Check the last acknowledged BO balance by the Account Office and verify the subsequent transactions of the BO to satisfy that the cash balance arrived at is correct. **Application: Generate DTR in SAP in advance.**

Note: The IA can get all details in CSI System before visiting the BO. During Inspection they can check whether BO records are actually matching the transactions reported to AO/HO.

Q.25. Wallet Balance: Verify the wallet balance with physical cash balance in hand and record the result. Obtain BPM's signature below the result noted. **Application: Ask BPM to Login to DEMO Booking App → Click navigation icon (3 vertical lines) → Click on Wallet Balance. Or generate DTR of the previous day from SAP and arrive at the balance at the time of visit.**

26. Stamps Verification

- (i) Verify the stamps balance and record the result in the BO account Book. Obtain BPM's signature. Application: Ask BPM to Login to DEMO Booking App → Click on Inventory Report → Click on Stamps. OR invoke MB52 in SAP with Plant ID and BOID.
- (ii) Whether stamps are received through CSI and properly acknowledged. Check invoices and whether inventory is properly updated. Application: MB51.
- (iii) Whether BPM is entering stamp sales under product sales option in the device and whether stock is updated instantly. Application: MB52.
- (iv) Are the authorised balances adequate with reference to Receipts and Payments at the Branch Office?

Q.27. BO Account Balances: Check the balances of BO account for one day selected at random, bi-monthly, since the last inspection by comparison with the balances including postage due on unpaid articles noted by the Account Office on BO slips. Check whether entries against heads (a) and (b) of the BO slips have been correctly transferred to the BO Account. If any alterations have been made in the balances noted by the AO in the BO slips, satisfy yourself that corrections are genuine.

Q.28. Cash Retention: Examine the BO Account since last inspection to see that BPM has not unnecessarily retained excess cash. Examine whether arrangements for exchange of cash with AO are satisfactory. Record instances of delay in payment of Money Orders,

Savings Bank withdrawals etc. for want of funds. Whether norms for remittances have been followed as mentioned in Directorate Letter No. 24-3/2012/PO dated 01/10/2018.

SECTION E: SAVINGS BANK

34. SB-26 Receipts

- (i) Check all SB-26 issued since last inspection. Comment whether cash received has been credited, original receipts with proper acquittance on reverse are pasted with office copies. All unused receipts are intact and run in consecutive order. For any SB-26 where the original is not available or not obtained, verify reasons to your satisfaction. Also ensure that PR Book (i.e. SB-26 receipt books) are in triplicate.
- (ii) Check whether reference ID generated at time of opening new account at BO is noted on office copy of SB-26 receipt and one copy of acknowledgement slip printed from RICT device is pasted on the office copy.
- (iii) While verifying passbooks, ensure that first page entries and initial deposits are printed using passbook printers for new accounts at concerned AO and there is no manual entry done by BPM.

35. Specimen Signature Books

- (i) See that separate specimen signature books for the various types of savings accounts viz. SB A/c, RD, TD and SSA have been properly maintained and all specimen signatures are available against the accounts opened since last inspection. Mention account numbers with name of scheme if any against which specimen signatures and photographs are missing. Also see that thumb impressions of illiterate depositors have been kept duly attested by a resident witness above the attestation made by the BPM.
- (ii) Check at random for accounts opened since Date of Last Inspection (DLI) whether signature and photograph are uploaded. Mention account numbers and result thereof in IR. Also see that photograph of all account holders who have opened the account after issue of AML/KYC norms are pasted in the SS Book.
- (iii) In case any depositor who has already given photograph for accounts opened earlier, see whether BPM has mentioned this fact against the new account in SS book.
- (iv) Test check a few cases of closed/transferred accounts to see that specimen signatures of respective accounts have been properly cancelled. Mention account numbers checked in the IR with result thereof.
- (v) Instructions may be given to the BPM to maintain SS Book with CIF Number.

36. Passbook Verification (Q.No. 36)

⚠ NOTE

Q.No. 36 has been revised THREE times: (1) Original via Letter dt. 09.08.2019, (2) First revision via Letter dt. 15.04.2021 changing frequency from 1/month to 1/2 months, (3) Second revision via Letter dt. 07.02.2022 adding Note 2 regarding repeated verification. The latest position (February 2022) is the exam-relevant version.

Latest Position (w.e.f. 07.02.2022): Collect 1 passbook for every two months (i.e. total 6 passbooks for each scheme since last inspection) for account opened/subsequent transaction made for each scheme operated by respective BO (i.e. SB/Basic Savings Account/RD/TD/SSA/MIS/SCSS/PPF/KVP/NSC) from depositors and verify with Finacle/Journal/RICT Device. In case not able to collect the passbook, issue SB-46 for verification of balances for such accounts. Also ensure that first page entries and initial deposit in the passbook are not altered/overwritten/erased.

Note 1: In case number of accounts opened under any scheme is less than prescribed above, all accounts under the particular scheme opened since last inspection are to be verified.

Note 2 (Added 07.02.2022): If any passbook(s) which has been verified in the last year inspection is/are verified during current year inspection, the reason(s) for verification of same passbook(s) is/are to be mentioned in the Inspection Report.

💡 TIP

Evolution of Q.36: Original (2019) = 5 passbooks per scheme → Revision 1 (24.09.2020) = 1 passbook per month (total 12 per scheme) → Revision 2 (15.04.2021) = 1 passbook every 2 months (total 6 per scheme) → Revision 3 (07.02.2022) = Same as Revision 2 but added Note 2 about repeated verification requiring reasons in IR. REMEMBER: Current requirement is 6 passbooks per scheme per inspection cycle.

37-39. Depositor Receipts & Transaction Verification

Q.37(i): Examine all SB-28 (depositors' receipts) issued since last inspection for reasons other than interest posting. Verify that original acknowledgements for passbooks are obtained and kept on record. In case of non-availability, see that reasons are explained satisfactorily. Also satisfy that only SB-28 depositor's receipts are issued.

Q.37(ii): Check if BPM has prepared list of accounts standing at the BO in prescribed format mentioned in Rule 50 (iv) of POSB (CBS) Manual in duplicate and sent one copy to Account Office.

Q.38: As per Rule 49(6) of POSB (CBS) Manual, after 31st March of every financial year, BPM should collect all SB and SSA Passbooks irrespective of whether they were presented for transaction or not, and issue receipt from SB-28 to the depositor. These Passbooks should be sent to Account Office for entry of interest. BPM shall prepare list of such accounts in duplicate in the prescribed format separately for SB and SSA and retain one copy.

Q.39: Select at random one day in each quarter since last inspection. Check whether the totals of deposits and withdrawals available in the List of Transactions (LOT) are reflected in the Daily Transaction Report (BODA) of the concerned BO. The LOT/DTR for selected dates shall be generated using Finacle MIS and SAP in advance and cross-checked with corresponding entries in the BO Account and BO slips. (Note: These checks should be carried out for all types of accounts viz. SB/TD/RD/SSA etc. Copy of the extract may be sent to AO and HO for verification.)

40-42. Undelivered Passbooks, TD Accounts & Commission

Q.40: Check undelivered Pass Books in deposit in the BO. Satisfy yourself that they have not been unnecessarily detained. Verify balances of these accounts with those shown in the Device and ascertain the period of your stay to have these pass books delivered. Note account numbers of those Passbooks in IR. Also educate BPM that no passbook should be retained in the post office after transaction.

Q.41(i) – DELETED: Collection of all TD passbooks since DLI has been deleted in the 2020 revision.

Q.41(ii): Collect five passbooks of RD discontinued accounts and verify with RICT CBS App/Finacle. (Discontinued accounts can be taken from Finacle MIS Server à Last Balance Report including BO for scheme type-TDA.) Check at least five RD/TD accounts of

different dates which are prematurely closed since last inspection and contact the depositors to confirm genuineness and record the result. Issue SB-46 notices if depositors could not be contacted.

Application: Generate Mini statement in CBS App or HACLI in Finacle.

Q.42 – BPM Commission: Check whether the commission bill paid to the BPM on the net SB deposits and TD (1/2/3/5 year) deposits were correctly calculated and paid. Verify the account opened/linked with BO through Finacle MIS Server Last Balance Report including BO for scheme type-TDA. In case of any discrepancy, record result with reason.

Application: BPM to be identified as Agent. TD commission paid report can be generated in Finacle. For SB proposal, check if given for BO level net accretion report.

Q.43 – BPM Knowledge: Does the BPM know about all savings schemes and their operation through the Device? Check whether the BPM and ABPMs are aware of AML/CFT/KYC and their relation with financial services offered by the Department. If not, explain in detail.

Q.44 – IPPB Accounts: Check the number of IPPB accounts opened by BPM/ABPM. Is there potential for opening more IPPB accounts than what has been achieved?

Q.45 – QR Cards: Check Stock Register of QR Cards received at BO (A Stock Register has to be introduced). Check the number of duplicate QR cards issued and whether prescribed procedure is being followed.

Q.46 – Social Security Payments: What is the number of different social security payments made in the BO? How many of them are paid through eMO and through Savings Bank? Educate the BPM to process payments through Savings Bank Accounts.

SUPPLEMENTARY QUESTIONS – FINANCIAL SERVICES (BO)

(Added vide Letter No. 16-02/2017-Inspn. dated 24.09.2020)

Suppl. Q.1 – Cheque Register: Check whether the GDS Branch Post Office is maintaining a manual cheque register for cheques received at BOs for new account opening/subsequent deposits in POSB schemes and following the procedure prescribed in SB Order 22/2020 dated 18.06.2020 and SB Order 27/2020 dated 23.07.2020. In case of any discrepancy, record result with reason.

fund transfer, bill payments, recharge etc. and providing necessary handholding for using IPPB Mobile Banking app.

Q.58.11: Check whether GDS is focusing on merchant acquisition and promoting digital eco-system for financial transactions within BO jurisdiction.

Q.58.12: Check whether GDS is promoting linkage of Post Office Saving Account (POSA) with IPPB account by explaining advantages thereof and progress made since last inspection.

Q.58.13: Check whether Territory Manager (TM)/Territory Officer (TO) of IPPB is frequently visiting the BO and providing necessary information and handholding on new products and services added by IPPB.

Note: It may be noted that IPPB operations are completely online with biometric authentication without any physical signatures, and therefore at an end user level/post office level there are no transaction vouchers, passbooks or a log of transactions maintained by the end-users. The inspecting officer will have real-time access to the IPPB system log to view the IPPB transactions done at an end-user, post office level.

SECTION K: CONCLUSION – INSPECTION SCORING

Q.59. Result of the inspection provided based on the following parameters/activities:

Branch/Activity	Max Points	Points Awarded
Maintenance of basic Records	5	
Maintenance and use of hardware	5	
Use of RICT Application (CBS/CIS/Del App/Booking App)	40	
IPPB (micro ATM/Accounts Processing/Accounts Servicing)	10	
Business Development & attitude of BPM towards Business Development	20	
Service Standards (delivery performance/booking of articles/MO, Savings Bank/Insurance)	20
