ADVANCED POSTAL TECHNOLOGY 2.0

(APT 2.0)

India Post — IT Modernisation Project 2.0

A Comprehensive Study Guide for LDCE IP / PS Group 'B' Aspirants

DISCLAIMER

This booklet has been prepared strictly from an examination point of view. While every effort has been made to ensure accuracy and to incorporate recent changes, amendments, notifications and circulars relating to the Department of Posts IT Modernisation Project 2.0 and the Advanced Postal Technology (APT) platform, this document is intended as a study aid only. Operational workflows are based on the APT application interface and departmental Standard Operating Procedures as compiled, and may be revised by the Department from time to time. Readers and aspirants are strongly advised to refer to official Department of Posts orders, SOPs, manuals and gazette notifications for the most reliable and authoritative position before relying on any provision herein.

1. Introduction — What is APT 2.0?

Advanced Postal Technology (APT) is the new, fully web-based digital backbone of India Post. It is the principal deliverable of the Department of Posts (DoP) Information Technology Modernisation Project 2.0 (commonly called “IT 2.0”), and is frequently referred to in the field as “APT 2.0”. Designed and developed indigenously by the Centre for Excellence in Postal Technology (CEPT), APT replaces the earlier IT 1.0 systems — chiefly the SAP-based Core System Integrator (CSI) back office and the Darpan solution for Branch Offices — with a single, unified, online platform covering booking, mails, delivery, accounts, treasury, human resources and management functions.

APT is built on a **micro-services, open-API architecture**, is hosted on the Government of India’s **MeghRaj 2.0 cloud (NIC)**, and rides on **BSNL’s nationwide connectivity**. It serves India Post’s network of about 1.65 lakh post offices — the largest postal network in the world — and was rolled out across roughly 1.70 lakh offices in all (post offices, mail offices and administrative units combined).

Nomenclature — read this first

“IT 2.0” (or IT Modernisation Project 2.0) is the overall Government-approved programme. “APT” / “Advanced Postal Technology” is the application platform delivered under it. In departmental usage the platform is often written as “APT 2.0” — the title of this booklet — but the formal name of the software is simply “APT”.

2. Genesis — IT Modernisation Project 2.0

The Union Cabinet approved IT Project 2.0 on **19 January 2022** for a total outlay of **₹5,785 crore**, to be incurred over a period of **eight years, from 2022–23 to 2029–30**. IT 2.0 combines applications, intelligent platforms and interconnected ecosystems to provide an inclusive, integrated, single-window view of postal and financial services to stakeholders through multiple delivery channels.

2.1 Year-wise IT Modernisation Expenditure

The following figures show the year-wise expenditure incurred under the IT Modernisation Project (IT 1.0 and IT 2.0 combined), as placed before Parliament. The break-up below is the latest officially reported series, given in a Rajya Sabha reply (December 2023); figures for FY 2023–24 were stated as provisional (“so far”).

Financial Year	Expenditure (₹ in crore)
2015–16	307.19
2016–17	188.41
2017–18	415.63
2018–19	375.32
2019–20	384.68
2020–21	802.02
2021–22	765.33
2022–23	1,087.48
2023–24 (provisional)	445.41

Currency note

These are historical figures up to FY 2023–24 as reported in Parliament. Year-wise figures for FY 2024–25 and FY 2025–26 were not separately published at the time of compilation; the total sanctioned outlay remains ₹5,785 crore over eight years. Do not treat the table as a complete project-to-date total.

3. Guiding Principles of IT 2.0

- **No dual structure:** A single India Post Payments Bank (IPPB) structure is to be used for banking, insurance and other financial needs, avoiding duplication of infrastructure.
- **Clear domain split:** Core postal operations remain the domain of DoP; the rest is integrated with IPPB to provide more inclusive financial and allied services to customers.
- **Steering Committee flexibility:** The Steering Committee is empowered to modify the financial and physical parameters of the project, provided this does not lead to a substantial change in scope.

4. Transition Decisions (Version 1.0 → IPPB)

The Steering Committee of Version 1.0 decided to transfer the contract management of certain components to IPPB on expiry of the then-current contracts, as follows:

Component	Transferred to IPPB w.e.f.
Data Centre facility	01 April 2022

Component	Transferred to IPPB w.e.f.
Network Integrator	01 April 2022
Banking, Insurance and AML	29 August 2022

5. The Two-Track Structure

To deliver IT 2.0 without a dual structure, work was organised into two clear sets of tracks — one owned by IPPB and one owned by DoP.

IPPB Tracks	DoP Tracks
Banking & Insurance	Postal & Point of Sale
Rural Hardware Devices	Accounting & Back-office Management
IT Infrastructure, Fraud & Risk Management	Field Networks & Postal Hardware

6. Governance Framework — Committees & Roles

6.1 Project Steering Committee (PSC)

- Sanctions all projects under DoP IT 2.0, including total contract cost.
- Revises estimates within the overall outlay approved by the Ministry of Finance.
- Has flexibility to modify financial and physical parameters without substantial change in scope.
- Monitors and reviews implementation and ensures timely completion.

6.2 Technology Advisory Group (TAG)

- Advises DoP on technical matters.
- Constituted by the Secretary (Posts); Steering Committee members may also be part of the TAG.

6.3 Project Evaluation Committee (PEC)

- Chaired by Secretary (Posts), with Member (Technology), the respective Chairman of PMC, AS&FA, one field representative (CPMG/PMG) as members, and DDG (Technology) as Convener.
- Scrutinises all deliverables and authorises payment / release of funds to IPPB.

6.4 Project Management Committee (PMC)

- Chaired by the functional division head, with the concerned IFA, other functional track heads, PMG/DPS from the field and GM (CEPT) as members; Director (Tech)/ADG (Tech) is Member-Convenor.
- Responsible for business requirements, SRS (Software Requirement Specification), UAT (User Acceptance Test), training and Go-live management for both DoP and IPPB tracks.
- Prepares EOI (Expression of Interest) / RFPs (Request for Proposal) / SLA (Service Level Agreement) / MSA (Master Service Agreement).
- Is the complete owner of the track and is responsible for the O&M (Operation & Maintenance) phase.
- Assesses and approves new requirements and changes in consultation with the Technology Division.

6.5 Centre for Excellence in Postal Technology (CEPT)

- Assists the PMC in preparing the scope of work, EOI/RFPs, bid evaluation and the Master Service Agreement.
- Carries out field rollout, UAT, pilot and deployment testing, and monitors deliverables and the SLA.

7. IT 2.0 Components & Management

The table maps each IT component to its version, its management under IT 1.0 and its future management under IT 2.0. Items marked with an asterisk (*) are contracts handed over to IPPB with effect from 01 April 2022.

#	Component	Ver.	Current	Future
1	Data Centre Facility	1.0	DoP	IPPB*
2	Network Integrator	1.0	DoP	IPPB*
3	Financial System Integrator	1.0	DoP	IPPB*
4	Remaining Contracts	1.0	DoP	DoP
5	Financial-tracks hosting, security, server infra & network	2.0	—	IPPB
6	Banking & Insurance application	2.0	—	IPPB
7	Fraud & Risk application	2.0	—	IPPB

#	Component	Ver.	Current	Future
8	Tablet/Mobile procurement replacing RICT devices	2.0	—	IPPB
9	Mail Management application (postal logistics & back-office mail, front-end channels/website, e-Commerce, philately)	2.0	—	DoP
10	Field IT infrastructure (other than RICT replacement), network connectivity, DoP-tracks hosting, business-continuity plan	2.0	—	DoP
11	Finance, accounts, reporting, analytics, inventory, CRM, HR & postal-network management applications	2.0	—	DoP

8. Solution Architecture

The APT solution is organised around a banking and insurance core and a set of unified “One” interfaces that bring the postal, accounting, management, user-experience and hosting layers together:

- **Banking Solution** — core banking functions delivered through IPPB.
- **Insurance Management System** — PLI/RPLI and allied insurance operations.
- **One PI – One Postal Interface** — the unified postal operations layer.
- **One AI – One Account Interface** — the unified accounting and finance layer.
- **One MI – One Management Interface** — the unified management, MIS and analytics layer.
- **One UI – One User Interface** — a single, consistent interface for staff and customers.
- **One HI – One Hosting Interface** — the unified hosting and infrastructure layer.

9. Key Features of APT 2.0

- **Micro-services, open-API architecture** with a single, unified user interface and cloud-ready deployment.
- **End-to-end digital workflow** from booking to delivery, across HO, SO, BO and RMS.
- **Digital / UPI payments:** customers can pay by QR code / UPI for Speed Post, parcels and other services. UPI now works from any bank account, removing the earlier restriction to IPPB accounts only.

- **OTP-based delivery:** a one-time-password mechanism secures delivery and protects the addressee's privacy.
- **Real-time tracking & photo proof of delivery,** with SMS updates at key stages.
- **GPS-enabled postmen:** delivery staff use GPS-enabled devices to improve efficiency and transparency.
- **Unified customer platform:** a single-window Customer Self-Service Portal and the Dak Seva App allow retail and bulk customers to self-book, request pick-up and avail various services.
- **DIGIPIN integration:** a 10-character alphanumeric digital address code is built into the platform to sharpen last-mile delivery accuracy (see Section 18).
- **Open-network design** for reliable connectivity even in rural areas, plus improved reporting and analytics.

10. Benefits of APT 2.0

- **Improved customer experience** — a friendlier interface and faster service delivery.
- **Greater efficiency & transparency** — digital integration and a cloud-based network make operations faster and more transparent.
- **Enhanced reliability** — services become more reliable, accessible and smarter.
- **Digital transformation** — a major step in India Post's IT 2.0 journey, integrating postal services into digital and online modes.

11. Rollout & Implementation

APT was rolled out in a phased, structured manner after a successful pilot in the Karnataka Postal Circle (May–June 2025). The internal departmental rollout schedule progressed as follows:

Stage	Coverage	Date
First Pilot Office	Ittigegud SO & all its BOs, Mysuru Division	15.05.2025
First Pilot HO	Mysuru HO (with associate offices) & all its SOs/BOs	04.06.2025

Stage	Coverage	Date
First Pilot Division	Complete Mysuru Division (incl. RMS); one HO + offices in each Division; all DOs/ROs/PAO/CO of Karnataka Circle	17.06.2025
First Pilot Circle	Karnataka Circle	24.06.2025
All Circles	Nationwide rollout across all 23 postal circles	04.08.2025
Remaining units	PSDs, Civil/Electrical wing, Directorate, RLO & CEPT	12.08.2025

Date check

The official Press Information Bureau release records the nationwide go-live across all 23 postal circles on 4 August 2025. Some internal schedules show “05.08.2025” for the all-circle stage; the authoritative date is 04 August 2025. Granular pilot dates above are from the departmental rollout plan and are consistent with the official “pilot in Karnataka, May–June 2025” position.

Key rollout facts (official):

- **All 23 postal circles** went live, covering over 1.70 lakh offices (about 1,70,353), including all post offices, mail offices and administrative units.
- **Over 4.6 lakh employees** were trained through a cascade model of Master Trainers, User Champions and End-Users under the principle “Train – Retrain – Refresh”.
- **Scale demonstrated:** the system handled over 32 lakh bookings and 37 lakh deliveries in a single day.
- **Investment:** about ₹5,785 crore under IT 2.0 (rounded to “₹5,800 crore” in some announcements).

12. Transition from IT 1.0 to IT 2.0

IT 1.0 (Earlier)	IT 2.0 / APT (Now)
POS & Back Office (offline)	APT web-based internal portal (online)
SAP (online)	APT web-based internal portal (online)
IVPS (Integrated Postal Verification System) in SAP	Bag Management in APT

IT 1.0 (Earlier)	IT 2.0 / APT (Now)
DPMS (Delivery & Postman Management Service) in SAP	PDMS (Postman & Delivery Management Service)
Darpan 2.0 for Branch Office	IMA (Internal Mobile App) → now the DREAM app (Digital Rural Enterprise Application for Mobiles)
PMA (Postman Mobile App)	DSS (Door Step Service) app for delivery staff
No TOTP/OTP login	TOTP app (Time-based OTP) / OTP-based secure login
No device registration	Device registration (desktop, laptop & mobile)
No customer self-service	Customer Self-Service Portal

13. The APT 2.0 Application — Login, Security & Apps

13.1 Login URL

The internal employee portal is accessed at <https://app.indiapost.gov.in/employeeportal>. A user logs in with the employee/CSI ID and password and, on first login, is prompted to change the default password issued by the Divisional Office.

13.2 Two-Factor Authentication (TOTP)

Two-factor authentication using a **Time-based One-Time Password (TOTP)** was made mandatory in production with effect from 07 July 2025. The user installs the “**APT TOTP**” mobile application (available for Android and iOS), enters the 8-digit employee ID and the mobile number registered in the PIS (Personal Information System) of ESS (Employee Self-Service), validates a one-time OTP, and then scans the QR code shown on the web application to generate the TOTP. A **Mobile-OTP** fallback is provided for exceptional cases as specified in the SOP. Failure to configure 2FA results in login being disrupted.

13.3 Mobile Applications

- **DREAM app (Digital Rural Enterprise Application for Mobiles):** used at Branch Offices by the BPM/ABPM/Dak Sevak. It replaces the earlier Darpan/IMA solution and carries out BO counter, bagging, delivery, CBS, PLI and pick-up operations.

- **DSS app (Door Step Service):** a Bring-Your-Own-Device (BYOD) Android application used by delivery staff — Departmental Postmen and GDS delivery staff — for door-step delivery, accountable-article and eMO handling. It replaces the earlier Postman Mobile App (PMA) and requires Android 11 or above.

Reading the workflows that follow

In the delivery workflows, references to confirming remarks “through IMA” mean the delivery official’s mobile app — i.e. the DSS app for departmental staff and the DREAM app for Branch-Office delivery staff. The label “IMA” is retained where it appears in the operational steps for fidelity.

14. Modules of APT 2.0

APT is organised into modules (presented as cards on the home screen). The table lists each module, its purpose and its principal sub-cards/options.

#	Module / Card	Purpose	Key Sub-cards / Options
1	Bag Management	Bag operations	Bagging Operations; Supervisor; Bag Reports; Tools; Internal Tracking; Reports; Advance Bagging
2	Booking Solution	Counter operations	Quick Book (Domestic/International); Mail Booking; Money Remittance; Retail Services; Counter Operations
3	Postman & Delivery Mgmt	Postman & delivery	Shift Begin/End; eMO View/Print; Delivery Option; Beat Mapping; Batch-Beat Mgmt; Bulk Addressee/Payee Mapping; Postman Sorting; Reports
4	Sub Account	SO account management	Slips & Bags; Account Verification (daily account, summary); Error Mgmt; ECB Mgmt; Reports
5	Treasury	Cash & treasury	Cash/Cheque; Stamps/Stationery; IPO; Approval; Reports; Tools
6	Inventory Management	Inventory & indents	Raise Indent; Approve Indent; Accept Stock; View Stock; Stock w/o Indent; Indent Status
7	Complaint Management	Customer complaints	Complaint Registration; Report & Analytics; Complaint Processing
8	Customer Relations Mgmt	Customer management	Contract; Barcode & Postbag/Postbox; RNP/WPP; Bulk Address/Payee; Bill Generation; e-Biller; Special Cover; Franchise; UTR Details; Data Updation

#	Module / Card	Purpose	Key Sub-cards / Options
9	Payroll System	Payroll services	Forwarding & Verification; Drawing & Disbursement
10	Personnel Information System	Personnel data	PIS Utilities; Deputation List; New Employee Creation/Updation; Probation
11	Support Desk	Support & tickets	FAQs & Documented Solutions; Raise/Inward Ticket; Tickets Raised; Reports & Analytics
12	Leave Management System	Employee leave	Approve Leave; Subordinate Charge; Leave Arrangement; Leave Report; Absentee Statement; Suo-Moto Cancel; Leave Credit; Fitness Certificate Upload
13	Exit Management	Retirement processing	Submit Application; Application Status; Self-Service Operations
14	Employee Self-Service	Employee portal	Leave Mgmt; Personnel Information; Employee Payments; Exit Management
15	Investigation Management	Departmental proceedings	Preliminary Enquiry; Case Mgmt; Claim Mgmt; Inquiry/Disciplinary Proceeding; Reports
16	Transfers	Rule-38 & Rule-3 transfers	Rule-38 Verification/Vacancy/Pending/MIS/Report/Statistics; Rule-3 Division & Circle Vacancy Capture
17	Barcode & Label Mgmt	Barcode & label printing	Generate Label; Bulk Barcode Print; Regenerate QR Code; Barcode Allocation
18	Carrier & Schedule Mgmt	Rail/Air/MMS/RTN schedules	Carrier; Driver; Contract; Mapping; Schedule; Trip Management
19	Post Management	Position IDs (Deptl, GDS, Pensioner, Outsourced)	Post Management; Authority Mapping
20	Role Management	Post/user-based roles	Role Mgmt; User Account Mgmt; Reports
21	Sorting Management (RMS)	Sorting & mail-office mgmt	Sort Mgmt; Due Mail List; PNOP; Bin Mapping; MO/Set/Bag Master; Staff Mgmt; Mail-office Mapping/Rotation; Hours Capturing
22	Budget	Budget module	Fund Allotment; RE/BE; FG Proposal; Expenditure Plan; Fund Utilisation; Reports

#	Module / Card	Purpose	Key Sub-cards / Options
23	Customer Relationship Mgmt	Customer relationship	Contracts; Barcode & Postbag/Postbox; RNP/WPP; Bulk Address & Payee; Bill Generation; e-Biller; Special Cover
24	Enterprise Error Mgmt	Error-book management	Error Creation; Dashboard; Error Discrepancy
25	Establishment Review	Establishment of BO/SO/HO/Admin	Data Entry; Master; Calculation Sheet [Est-2 every 4 months (Feb/May/Aug/Oct), MTS Estt, Delivery Estt, Est-5 Income & Cost]; Report
26	Inspection	Annual inspection	Questionnaire Create/View; Schedule & Approve/Edit; Reply Compliance; Inspection Report; Verify Inspection
27	Pickup & Induction Mgmt	Pickup/drop-off (CSP / Dak Seva)	Pickup Mgmt; Induction (Pickup/Drop-off); Cash Transfer; Tally Account; Verify Account
28	EFRM	Enterprise Fraud & Risk Mgmt	Dashboard; View Alerts; Respond to Alerts
29	Philately	Philately operations	PDA Mgmt; Treasurer Mgmt; Product Mgmt; MIS Report; Admin; Supervisor
30	Bank Module	Bank module (PAO & HO)	Drawings; Remittance; Configure; Reports
31	PAO Module	Accounts at PAO	Verify Daily Cash Book; Cash Account; Transfer Posting; PAO/Pr.AO Objections; DDO Transfer Entries; PFMS XML; Tax Collection Report
32	Employee Self-Service	Employee portal	Leave Mgmt; Personnel Information; Employee Payment; Exit Management

15. APT 2.0 Workflow — Head Post Office

15.1 Counter Operations

Work Process	Module	Main Card	Option	Role	Remarks
Day Begin	Treasury	Treasury	Day Begin	PM/SPM/TRR	If previous day-end and other shift-ends are done, day-end and

Work Process	Module	Main Card	Option	Role	Remarks
					day-begin happen together.
Work Allocation	Booking Solution	Tools	Allocate Counter	Supervisor	Modify, delete or forcibly shift counters.
Shift Begin	Booking Solution	Counter Operations	Shift Begin	PM/SPM/Supervisor	Begin counter operations.
Request Cash	Booking Solution	Counter Operations	Request Cash	PA	When the counter needs cash.
Cash Process	Treasury	Cash/Cheque	Cash Process	TRR	Transfer cash to counter.
Acknowledge Cash	Booking Solution	Counter Operations	Acknowledge Cash from Treasury	PA	Acknowledge cash received.
Mail Booking	Booking Solution	Mail Booking	Domestic / Foreign Book	PA	Book RL, SP, PL, eMO etc. For foreign articles, HS code is mandatory.
Mail Booking (Insured)	Booking Solution	Quick Booking	Insured Article	PA	Book insured transactions.
Insured Authorisation	Booking Solution	Mail Booking	Insured Article Authorisation	SPM	Authorise insured articles (no authorisation for C-class).
eMO Booking	Booking Solution	Money Remittance	Domestic eMO Book	PA	Book electronic money orders.
eMO Authorisation	Booking Solution	Counter Operations	Authorise Money Order	SPM	SPM authorises/rejects eMO (no authorisation for C-class).
Retail Operations	Booking Solution	Retail Services	All Retail Services	PA	IPO sale, stamps, e-Post, philately, bill collection, employee payments, NPS etc.
Cash Return	Booking Solution	Counter Operations	Transfer Cash	PA	Transfer cash back to Treasurer.

Work Process	Module	Main Card	Option	Role	Remarks
Receive Cash	Treasury	Cash/Cheque	Cash Process	Treasurer	Treasurer receives the cash.
Submit Account	Booking Solution	Counter Operations	Submit Account	PA	Generate account; adjust any cash difference, then submit.
Verify Account	Booking Solution	Counter Operations	Verify Accounts	SPM	SPM verifies the counter PA's account.
Shift End	Booking Solution	Counter Operations	End Your Shift	PA	Generate all reports before ending the shift.
Day End	Treasury	Tools	Day End	PM/SPM/TRR/Supervisor	Day-end (see Day Begin note).

15.2 Bagging Operations

Work Process	Module	Main Card	Option	Role	Remarks
Bag Close	Bag Mgmt	Bagging Ops	Fetch Counter	Mails PA/PA	Fetches booked, returned and redirected articles from counters.
Station Bag Close	Bag Mgmt	Bagging Ops	Station Bag Close	Mails PA/PA	Close bag with station articles (need not be dispatched).
INS Verification	Bag Mgmt	Supervisor	INS Article/Bag Verification	SPM/Supervisor	Insured-article verification.
Bag Close at PO	Bag Mgmt	Bagging Ops	Close Bag to RMS	Mails PA/PA	Close bag to parent RMS.
INS Bag Verification	Bag Mgmt	Supervisor	INS Article/Bag Verification	SPM/Supervisor	Insured-bag verification.
Error Management	Bag Mgmt	Supervisor	Error Management	SPM/Supervisor	Article short/excess/damaged; bag excess/short/torn errors.

Work Process	Module	Main Card	Option	Role	Remarks
Change Article Status	Bag Mgmt	Bagging Ops	Change Article Status	SPM/Supervisor	Change article status.
Bag Dispatch	Bag Mgmt	Bagging Ops	Bag Dispatch	PA	Dispatch the bag.
Cancel/Re-open Bag	Bag Mgmt	Tools	Cancel Dispatch / Re-open / Delete	PA	Cancel dispatch, re-open or delete a bag; change PIN, add articles, mark received bag as opened.
Reports	Bag Mgmt	Bag Reports	Manifest / Mail List / Departure Slip / Label	PA	Print manifest, mail list, departure slip and bag label.

15.3 RMS Functionalities

Note: The RMS bag flow is shown separately for ease of understanding.

Work Process	Module	Main Card	Option	Role	Remarks
Mail-office Mapping	Sorting Mgmt	Mapping/Rotation	Mail-office Mapping	SRM	Mapping of mail office (one-time job).
Create/Modify Set	Sorting Mgmt	Set Master Mgmt	Create / View / Modify Set	SRM	Set creation and modification (one-time job).
Staff MO Mgmt	Sorting Mgmt	Staff MO Mgmt	Work Assignment	SRM	Work assignment for each cadre (daily).
Work Allocation	Sorting Mgmt	Staff MO Mgmt	Duty Allocation / Add-Modify	HRO/SRO	Daily duty allocation.
Set Open/Close	Sorting Mgmt	MO Management	Set Open / Close	HAS	Open or close set daily.
Bag Receive	Bag Mgmt	Bagging Ops	Bag Receive	Sorting Asst	Receive bags at NSH.
Bag Open	Bag Mgmt	Bagging Ops	Bag Open	SA	Open bags at NSH.
INS Verification	Bag Mgmt	Supervisor	INS Verification	HAS	Verify received insured L/P before closing bags to POs.

Work Process	Module	Main Card	Option	Role	Remarks
Bag Close	Bag Mgmt	Bagging Ops	Bag Close	SA	Close bags to POs.
Bag Dispatch	Bag Mgmt	Bagging Ops	Bag Dispatch	SA	Dispatch bags to concerned POs.

15.4 Cash Flows (SO ↔ HO)

Day Begin in Treasury module by the Treasury Supervisor, then:

- **Cash request from SO to HO (in bag):** Treasury → Cash/Cheque → Cash Request (by Treasurer).
- **Cash remittance from HO to SO** follows the corresponding approval and bagging steps below.

15.5 Bank Drawals & Bank Remittance (Bank-attached Office)

- **Bank Drawal:** Treasurer → Treasury-Bank → Bank Drawal (amount, remarks, submit) → Supervisor → Treasury-Approval → Cheque Approval (Src) → Bank Module → Drawings Mgmt → Cheque Issue → Treasurer → Treasury → Cheque Disposal.
- **Bank Remittance:** Treasurer → Treasury-Bank → Bank Remittance (amount, remarks, denomination, submit) → Supervisor → Treasury-Approval → Cash Approval (Src) → Treasurer → Reports → Bank Remittance Transaction & Bank Passbook.

15.6 Stamp & IPO Requests of SO processed at HO

- **Stamps:** Treasurer → Treasury-Stamps/Stationery → Request (category, description, count, submit) → Stamp Request Approver (Supervisor) → Approval → Stamp Issue/Receipt Approval → Sub-Accounts PA → SO Slip Generation → Generate Slip → Mails PA → Bagging → Bag Dispatch to SO.
- **IPO:** Treasurer → Process IPO Indents (denomination, quantity, remarks, submit) → IPO Request Approver (Supervisor) → Approval → Approve IPO Request (Source) → Sub-Accounts PA. The HO closes the requested stamps/IPO to the SO in an account bag (Sub-Account module) and dispatches it through the Bagging module. The SO acknowledges via Treasury → Stamps/Stationery-Acknowledge or IPO-Acknowledge.

15.7 Indents — HO ↔ PSD

- HO Inventory Operator → Raise Indent → General Request → Add Product → Submit.
- HO Inventory Supervisor → Authorise Raised Indent → Select Request ID → Authorise.

- PSD Operator → Approve Indent → Select Request ID → Submit; PSD Supervisor → Authorise Approved Indent → Submit.
- HO Inventory Operator → Accept Stock → Select Indent No → Receive; HO Inventory Supervisor → Accept Stock → Submit.

15.8 SO Operations at HO

- **Inwards at HO:** Mails PA receives SO bag → Sub-Accounts PA opens SO account bag → cash remittance transferred to Treasurer; documents to concerned branch → Verify SO Daily Account → submit → HO Summary to Cash Book (after day-end) → Cash Account → submit to PAO.
- **Outwards to SO:** process cash/stamp/IPO requests with PM approval; capture cash-bag weight → Sub-Accounts PA closes SO account bag (cash/stamp/IPO auto-populate; enter documents; generate SO slip; capture bag label & weight) → Bagging PA dispatches the bag.

16. APT 2.0 Ready Reckoner — Sub Post Office

Booking, bagging and postman/delivery workflows at the SO follow the same procedure as the Head Post Office (Section 15), operating within the SO environment. The SO-specific flows are below.

16.1 Cash Request & Remittance (SO → HO)

Day Begin in Treasury module by the Treasury Supervisor (Sub-Postmaster), then:

- **Cash Request (incl. special):** Treasurer → enter amount & remarks (tick 'Special Request' if applicable) → select employee(s) → submit; Supervisor approves via Approval → Cash Approval (SRC). For special requests, the Cash Office/HO processes, closes the cash bag, generates the SO slip and dispatches the account bag; the SO then receives, opens and acknowledges the cash.
- **Cash Remittance (incl. special):** Treasurer → enter amount & remarks (tick 'Special Remittance') → select employee(s) → submit; Supervisor approves via Cash Approval (SRC). For special remittance, Treasurer → Cash Bag → Sub-Accounts PA closes account bag to HO → Mails PA dispatches to Cash Office.

16.2 Cheque Request & Cheque sent for Realisation (SO → HO)

- **Cheque Request:** Treasurer → Cash/Cheque → Misc Transactions → Payment → Cheque → enter payee, account code, remarks, amount → insert & submit.

- **Cheque for Realisation:** Treasurer → Misc Transactions → Receipts → Cheque → enter cheque number/date, remarks, account code, amount → insert & submit. The linked Cash Office processes and returns documents/cheques via Sub-Accounts and Bagging modules; the SO receives, opens, the Supervisor approves the misc transaction, and the Treasurer does Cheque Disposal.

16.3 BO Operations at SO

- **Inwards at SO:** Mails PA receives BO bag → Sub-Accounts PA opens BO bag → cash to Treasurer; mails to Delivery PA; documents to concerned branch → Verify BO Daily Account → BODA reflection (record errors, submit) → Summary View.
- **Outwards to BO:** invoice articles & eMO in Postman & Delivery Mgmt → process cash/stamp requests with SPM approval; capture cash-bag weight → Sub-Accounts PA closes BO bag (figures auto-populate; enter documents; generate BO slip; capture label & weight) → Bagging PA dispatches.

17. APT 2.0 Ready Reckoner — Branch Post Office (DREAM App)

All Branch-Office operations are carried out on the DREAM app. Each session starts with Day Begin.

17.1 Cash, Remittance & Stamp Indent

- **Cash Request (BO → SO):** Cash & Stamps → Cash Request. Normal: amount, remarks, submit. Special: amount, remarks, tick Special Request, select line limit (cash through BPM/ABPM/Dak Sevak), select Employee ID, submit.
- **Cash Remittance (BO → SO):** Cash & Stamps → Cash Remittance. Normal: amount, to-office, denomination, cash-bag weight, submit. Special: as above with Special Remittance and line limit.
- **Stamp Indent (BO → SO):** Cash & Stamps → Stamp Request → category, type, count → add details → submit → Yes. Acknowledge stamps from SO: select request → entry → Process → Yes.

17.2 CBS, PLI & Pickup

- **CBS:** Main Menu → CBS. Cash deposit / withdrawal: enter account number → submit.
- **PLI:** Main Menu → PLI → Collection. Initial premium: proposal number, amount, submit. Renewal: policy number, installments & premium, submit.
- **Pickup:** select Request ID → Pickup.

17.3 Counter Operations

- **Speed Post / Parcel (and erstwhile Registered Letter):** enter barcode, weight, address → submit → cash / digital payment → print receipt.
- **eMO:** select eMO → enter amount → tick the amount-limit check-box → address → submit → cash / digital payment → print receipt.
- **e-Biller:** select e-Biller → enter number, fetch details → submit → pay (cash/QR) → submit.
- **Miscellaneous:** select misc entry → amount → submit.

17.4 Bagging & Delivery

- **Bag received from SO:** Bag Receive → select schedule, scan bag → Receive → Bag Open → select date → scan articles → confirm.
- **Bag close (BO → SO):** BO Bag Close → fetch articles → Bag Close → scan label, enter weight → submit.
- **Bag dispatch:** select schedule → scan label → Dispatch → submit.
- **Delivery (invoice):** select articles/eMO → select delivery official → scan → Invoice → Cash Process → Process. Returns: modify, confirm, submit → accept cash.
- **Door-step delivery:** acknowledge articles/eMO → delivery: receiver name, digital sign, submit; non-delivery: select reason, take photo, submit.

17.5 Day End

- **Counter:** Close Account.
- **Delivery:** Return → submit → select BPM/ABPM → Fetch → submit → Day End.
- **ECB / Liability:** select date → Fetch → enter liability details → submit.

18. Recent Developments & Currency Updates

This section consolidates verified updates that post-date or refine the original notes, so the booklet reflects the latest in-force position. Sources and dates are listed in Section 20.

18.1 DIGIPIN — now launched and in use

- **What it is:** DIGIPIN (Digital Postal Index Number) is a standardised, geo-coded national addressing grid — the foundation layer of a Digital Public Infrastructure (DPI) for addressing, enabling “Address as a Service” (AaaS).

- **Developed by:** the Department of Posts in collaboration with IIT Hyderabad and the National Remote Sensing Centre (NRSC), ISRO. It is open-source (released in the public domain).
- **How it works:** India is divided into roughly 4 m × 4 m grid units; each unit gets a unique 10-character alphanumeric code derived from its latitude and longitude. It works offline, stores no personal data, and remains static even if roads or building names change.
- **Status:** the final technical document was released in March 2025; the “Know Your DIGIPIN” and “Know Your PIN Code” platforms were launched on 27 May 2025. DIGIPIN is being used within APT for more precise sorting, tracking and last-mile delivery.
- **Important:** DIGIPIN complements — it does not replace — the existing six-digit PIN code; the two coexist.

18.2 Merger of Registered Post with Speed Post

- By a DoP directive dated 02 July 2025, the standalone “Registered Post” label for domestic mail was discontinued with effect from 01 September 2025; such mail is now processed under Speed Post.
- “Registration” continues as an optional, paid value-added service within the Speed Post framework (for addressee-specific delivery, proof of delivery and acknowledgement). The PIB clarified (Aug 2025) that the service was upgraded/merged, not abolished.
- **Practical effect in APT:** booking menus, receipts and templates were to be updated to reflect Speed Post nomenclature — relevant when reading the “Registered Letter” references in the booking workflows above.

18.3 Authentication & App Versions

- TOTP 2FA went live in production w.e.f. 07 July 2025 (APT TOTP Operational Guide v1.0, 05 July 2025).
- The DSS (BYOD) app SOP is dated 02 July 2025; the DREAM app is updated periodically (for example, version 1.0.34 was deployed on 20 June 2026). Always use the latest released version.

19. Abbreviations

Abbr.	Expansion	Abbr.	Expansion
APT	Advanced Postal Technology	DoP	Department of Posts
IPPB	India Post Payments Bank	CEPT	Centre for Excellence in Postal Technology
MoF	Ministry of Finance	PSC	Project Steering Committee
TAG	Technology Advisory Group	PEC	Project Evaluation Committee
PMC	Project Management Committee	SRS	Software Requirement Specification
UAT	User Acceptance Test	EOI	Expression of Interest
RFP	Request for Proposal	SLA	Service Level Agreement
MSA	Master Service Agreement	O&M	Operation & Maintenance
AML	Anti-Money Laundering	RICT	Rural Information & Communication Technology
HO / SO / BO	Head / Sub / Branch Post Office	RMS	Railway Mail Service
NSH	National Sorting Hub	PSD	Postal Stores Depot
PAO	Postal Accounts Office	PFMS	Public Financial Management System
CBS	Core Banking Solution	PLI / RPLI	(Rural) Postal Life Insurance
eMO	Electronic Money Order	iMO	Instant Money Order
TOTP	Time-based One-Time Password	BYOD	Bring Your Own Device
DSS	Door Step Service (app)	DREAM	Digital Rural Enterprise Application for Mobiles
IMA / PMA	Internal Mobile App / Postman Mobile App	DPMS / PDMS	Delivery & Postman / Postman & Delivery Mgmt Service
IVPS	Integrated Postal Verification System	DIGIPIN	Digital Postal Index Number
AaaS	Address as a Service	DPI	Digital Public Infrastructure
NRSC	National Remote Sensing Centre	PIS / ESS	Personnel Information System / Employee Self-Service

Abbr.	Expansion	Abbr.	Expansion
BODA	Branch Office Daily Account	RNP / WPP	Registered Newspaper / Window Prepayment Post
EFRM	Enterprise Fraud & Risk Management		

20. Sources & Accuracy Notes

In line with a primary-source, latest-in-force standard, the policy and factual claims in this booklet were verified against the following. Operational workflow steps (Sections 14–17) are based on the APT application interface and departmental SOPs as compiled, and may be revised by the Department; flagged items are noted in-text.

- **Project approval, outlay & governance:** PIB / Rajya Sabha replies on IT Modernisation Project 2.0 (₹5,785 crore, eight years), Dec 2022; year-wise expenditure up to FY 2023–24, Rajya Sabha reply, Dec 2023.
- **Nationwide rollout:** PIB Press Release, “Rollout of IT 2.0 – Advanced Postal Technology” (national go-live 04 August 2025; all 23 circles; ~1.70 lakh offices; 4.6 lakh staff trained; 32 lakh bookings / 37 lakh deliveries in a day), 19 August 2025.
- **DIGIPIN:** India Post DIGIPIN portal (indiapost.gov.in/digipin) and DIGIPIN GitHub; final technical document, March 2025; platforms launched 27 May 2025; aligned with National Geospatial Policy 2022.
- **Registered/Speed Post merger:** DoP directive dated 02 July 2025 (effective 01 September 2025); PIB Fact Check clarification, August 2025.
- **Login & authentication:** APT employee portal (app.indiapost.gov.in/employeeportal); APT TOTP Operational Guide v1.0 (05 July 2025); TOTP in production w.e.f. 07 July 2025.
- **Mobile apps:** DSS (BYOD) SOP, 02 July 2025; DREAM app release notes (v1.0.34, 20 June 2026).
